## TELL ME MORE ABOUT UK PROP SOCIAL?

**UK Prop Social** is a place where the property community can meet with fellow professionals working across the Thames Valley, East of England, and London West property markets. Whether online or in person, our events are designed to bring together stakeholders, partners, and sponsors. Our aim is to capture these views through our three property newsletters (**Eastern Echo, Thames Tap and West London**) which have a combined readership of 14,000 .

**UK Prop Social** reflects the growing need for debate and discussion within the property sector by holding events on-line or live in the key towns and cities across the region. Over the past few months, as we have all moved to more digital relationships, UK Prop Social has reflected this change in working culture by investing in an online Members' Forum.

Membership currently sits at around 250 and is growing monthly due to the need to connect and find out what is going on in the marketplace in the strange world in which we now live and work.
