Celebrating industry and economic excellence in the Oxfordshire region

INTRODUCTION

Over the past 15 years Oxfordshire has changed from a regional economy into an economic region which is connected globally to high growth industries such as the life sciences, digital and many other new technologies. These changes have created unprecedented - not to mention global - pressures which are now evident across the infrastructure, housing, office, retail and industrial sectors.

UK Prop Fest and OxPropFest 2021 will be a unique opportunity to bring people together and showcase examples of best practice which reflect how the region has become an economic powerhouse.

REWARDING EXCELLENCE

Oxfordshire is experiencing dramatic changes as investments are confirmed and developments planned. All this activity is generating huge interest in the area from companies across the property sector. The OxPropFest Awards are designed to identify the many examples of best practice from across the region that have been delivered in 2020.

COVID-19

Oxfordshire, like the rest of the UK, has had to cope with the ravages of COVID-19. Across all property sectors, change and rapid innovation is now the norm. Our awards will in no small part, recognise the new environment in which we all now work.
